Associate Membership Program

What is NDHA?

The North Dakota Hospital Association (NDHA) is a nonprofit membership organization, affiliated with the American Hospital Association, which provides leadership on healthcare issues. The Association provides a forum for the exchange of ideas, information research and methods of improving healthcare delivery. Working with its members and other organizations, the NDHA builds coalitions of interested individuals and organizations to address state healthcare delivery concerns, and develops and promotes effective solutions at national, state, and local levels. The NDHA membership is a diverse collection of organizations and individuals who share a common interest in improving the delivery of healthcare services to advance the health status of North Dakotans.

Why become an Associate Member?

Becoming an Associate Member is a great way to connect with the North Dakota hospital community. An Associate Membership demonstrates to current and potential clients that your business supports the NDHA, its members and goals. Associate membership allows you to stay informed of the changing issues and challenges faced by North Dakota's health care providers and to network with health care leaders.
